Ref.: **Acceptance Letter and Invitation from the IWRF-2018**

Dear Wang,

Thank you for submitting your abstract entitled "Large Piezoelectricity in Ternary Lead-free Relaxor Single Crystals" (Yaojin Wang, Haosu Luo, Dwight Viehland).

On behalf of the Organizing Committee of the **6th International Workshop on Relaxor Ferroelectrics (IWRF-2018)**, I am pleased to inform you that your above-mentioned abstract has been accepted for **an invited talk** at the IWRF-2018 which will be held on July 17 - 21, 2018, in Vancouver, British Columbia, Canada.

The IWRF-2018 is aimed to provide a forum to present and discuss the state-of-the-art developments in relaxor ferroelectrics and related materials, with emphasis on the analysis, theory and modeling, and interpretations of the relaxor ferroelectricity and related phenomena, in order to gain a better understanding of the relationship between the nano-structures and macroscopic properties of relaxors, and to design and synthesize novel relaxor ferroelectric materials for technological applications.

Oral and poster papers presented at the IWRF-2018 will be published after peer-review in a Special Issue of the international journal **Ferroelectrics**. We invite you to contribute a paper to the Proceedings. Please submit your manuscript to the IWRF-2018 Secretariat at <iwrf-2018@sfu.ca> by July 18, 2018 along with a transfer of Copyright form and a Transmittal form.

Please refer to the website at www.sfu.ca/iwrf-2018 for more detailed information.

On behalf of the Organizing Committee, I look forward to welcoming you to Vancouver in July for a successful IWRF-2018!

Sincerely,

Zuo-Guang Ye, Ph.D.
General Chair, IWRF-2018
