 ICAE 2019_CFP.PDF (786 KB)

Dear Prof. Yaojin Wang

On behalf of the Organizing Committee of the 5th International Conference on Advanced Electromaterials (ICAE 2019), it is my great pleasure to announce that ICAE 2019 will be held in fabulous Jeju Island, Korea, from November 5 to 8, 2019.

ICAE, the bi-annual conference provides a forum for discussions on all aspects of "electromaterials". Its scope includes but not limited to the various disciplines of electronic materials, including ferroelectric and piezoelectric materials, green energy materials such as solar cells and fuel cells, functional thin films and devices, energy storage materials, "soft" organic electronics, smart sensor materials and devices, new applications and displays based on LEDs and OLEDs, advances in wide gap semiconductors, atomic and nanoscale characterizations of electromaterials, and so on.

In the 4th ICAE held in 2017, 1,218 presentations were made, of which about 200 technological papers were published in prominent international journals such as PSS A, TSF, JECR and JNN. In ICAE 2019, all the participants will have an excellent opportunity to present their recent advances in research and share academic knowledge and hands-on experience with more than 1,400 experts and scholars from all over the world.

I would like to invite you as an **Invited Speaker for Symposium, "Piezoelectricity & Ferroelectricity in Dielectric Materials and Applications"** organized by **Dae-Yong Jeong (Inha Univ.)**, **Jae-Hyeon Ko (Hallym Univ.)**, **Shujun Zhang (Univ. of Wolloong)** and **Hajime Nagata (Tokyo Univ. of Science)**. Your professional knowledge and extensive career will be a definite advantage to all members in this field. We will take your participation with a great honor.

We, ICAE 2019 Organizing Committee, will provide you with **USD 300** if you accept our invitation. (Please kindly note that all speakers are requested to pay registration fee, USD 600.)

Once again, we hope to have you as one of our glorious guests at ICAE 2019.

We look forward to receiving your positive reply at your earliest convenience.

With best regards,

Cheon Lee
General Chairman, ICAE 2019

President of Korean Institute of Electrical and Electronic Material Engineers
Professor, Inha University

Jae-Shin Lee

Chairman of Technical Program Committee, ICAE 2019
Professor, University of Ulsan
